

## **Eucharistic Ministry Outreach**

**Purpose/Mission:** To distribute Holy Communion to those who are at a point in their lives when they have no other way to receive the Body of Christ except by someone bringing the Eucharist to them.

### **Services Provided:**

Take communion to those Catholics who are homebound, hospitalized, in medical or long term care facilities and all those unable to attend Mass.

### **Other Information:**

Taking the Eucharist out of the Church to those in need is an honor as well as a deep responsibility since this is The Body of Christ. Many times the recipients are in the later stages of life. Giving Communion to these people at this vulnerable stage of their lives is a humbling but spiritually rewarding experience. It brings sanctification to both the Eucharistic Minister and to those receiving the Eucharist for whom this is of utmost importance.
