January 26
February 2
February 9
February 16

Regional Competition at UK on
Saturday February 19.

Seton Math Team

2010-2011

MATHCOUNTS®

Typical day's practice:

When you come to Math team practice you will begin with your snack and a chance to chat with your fellow 'Mathletes'. You will also find a workout form ready for you to begin your math challenges.

Each day we will work on a different topic; slope of a line, area of a trapezoid, Pythagorean theorem, ratios and percents, multiplying square roots, probabilities, or permutations and combinations. We will review the workout and discuss any tricky areas. Then we will practice a countdown round.

A countdown round is when the group will be divided into teams and the teams compete against each other. The teams will be given a problem and a certain amount of time to answer the problem. We keep score and have a lot of fun with this although we are preparing for real competition at the same time.

Math team has competitions beginning in October. They are usually on Wednesday or Thursday afternoons at area middle schools. All these competitions are in the countdown round format. Everyone participates in these competitions and we always enjoy ourselves.

The final competition includes middle schools from across the state and is on Saturday, February 19 this year. It is often combined with the Engineering Day at UK and is great fun for everyone.

Math Team is a group of middle school students who are interested in learning more about math. It is a fun way to get together with other middle school students and practice your math skills. It is not a typical class because it involves both team work and competition. Probability, geometry, number theory, and algebra are just a few of the range of topics that are tackled in math team problems. If you are ready to be challenged in math - you are ready for the math team!

Information about Math Team 2010 - 2011:

π Meets every Wednesday or Thursday beginning in October

π Meets from 3:00 - 4:00

π Meets in Ms. Saunier's room

You need to bring:

Δ Snack with drink

Δ Pencil

Δ Calculator
