Life Long Service Log

Each candidate needs to have the understanding of our calling to Christian Service, not only at this time but also throughout our lives. We are required, by the promises made at our Baptism, to an ongoing life of service toward others. Our hope is that each candidate has a variety of service experiences leading up to Confirmation, experiences that take him or her out of their comfort zone. We are again asking candidates to track these hours. We feel 10 hours per year as a reasonable guideline. Log your experiences on the bottom of this form. At the end of each year we will ask you to complete a short reflection on your service experiences. This will be a total of 30 hours during the 3 year preparation time. Our hope is that candidates will see service as a part of their life as a Catholic Christian not as a goal to reach one time.
