

Let the New Adobe Reader ...

READ OUT LOUD TO YOU

When viewing a document on line from within your Browser window... Press and hold the SHIFT and CONTROL and letter V key at the same time. Make sure your volume is turned up and the computer will start reading the document to you.

If you open up the document from the full version of Adobe Reader 6.0, 7.0 or Reader 7.0, from the tool bar pick view, then read out loud as shown below.
