## Curriculum Notes

**Religion:** We use the Sadlier Religion program for all grade levels. Our religion program incorporates daily prayer, character education, and community service. We attend Mass once a week.

**Everyday Math:** There are a number of features that distinguish the *Everyday Mathematics* curriculum. These include: real-life problem solving, balanced instruction, multiple methods, emphasis on communication, appropriate use of technology.

**FOSS Science:** Our curriculum provides challenges for all students and results in a much deeper understanding of the subject. In an inquiry based atmosphere students participate through observing, communicating, comparing, organizing, relating, inferring, and applying.

**Pre-Algebra and Algebra:** Both classes are available for 8th graders based on student readiness.

**Reading:** Students in grades PreK-5 use the Houghton Mifflin reading series. An emphasis in PreK-3 will be placed on phonics and literacy development. Middle school students read novels and other trade books to help them develop their reading skills, interest, and motivation.
